SUMMARY

I am an eager Front-End enthusiast with a strong grasp of HTML5, CSS3 and JavaScript. I have been honing my skills and have successfully completed projects that prioritize user-friendly design. I am drawn to dynamic and stimulating environments where I can use my creative thinking to make a positive impact on various aspects of life and business. Being a quick learner and a responsible individual, I am always open to embracing new challenges and giving my best effort.

PROJECT EXPERIENCE

MoneyGuard, Link (React,Redux,REST API)

Welcome to our Money Guard, your go-to web app for effortlessly managing income and expenses. As the team lead and developer, I'm dedicated to enhancing your financial control experience.

Cinemania, Link (HTML, CSS, JS, Parcel,REST API)

Welcome to our Cinemania, where you can explore films across genres, year or title. My role was a developer, i am worked with API and part of front-end development.

Minimal, Link (HTML, CSS, Vite,GIT)
